ACCOUNT DISCLOSURES

Except as specifically described, the following disclosures apply to all of the accounts. All accounts described in this Truth-In-Savings Disclosure are share accounts.

1. Rate Information. The Annual Percentage Yield is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. For Share Savings accounts, the Dividend Rate and Annual Percentage Yield may change quarterly as determined by the Credit Union's Board of Directors. For On Track Checking accounts, the Dividend Rate and Annual Percentage Yield may change quarterly as determined by the Credit Union's Board of Directors. The Dividend Rates and Annual Percentage Yields are the rates and yield as of the last dividend declaration date, which is set forth in the Rate Schedule.

2. Nature of Dividends. Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period.

3. Dividend Compounding and Crediting. The compounding and crediting frequency of dividends and dividend period applicable to each account are stated in the Rate Schedule. The Dividend Period is the period of time at the end of which an account earns dividend credit. The Dividend Period begins on the first calendar day of the period and ends on the last calendar day of the period.

4. Accrual of Dividends. For all accounts, dividends will begin to accrue on noncash deposits (e.g. checks) on the business day you make the deposit to your account.

If you close your account before accrued dividends are credited, you will not receive the accrued dividends.

5. Balance Information. To open any account you must deposit or already have on deposit at least the par value of one full share in any account. The par value amount is \$5.00. Some accounts may have additional minimum opening deposit requirements. The minimum balance requirements applicable to each account are stated in the Rate Schedule. For accounts using the Daily Balance method as stated on the Rate Schedule, dividends are calculated by applying a daily periodic rate to the balance in the account each day.

6. Account Limitations. The required balance is \$50.00. This is a flat hold and remains on deposit until account is closed. Access to FREE Home Banking and FREE Bill Payer is available. Debit card with direct deposit is available. Six non-sufficient funds (NSF) items are allowed in a 12 month period. If more than six (6), the account will be closed. The account may be closed earlier depending on the amount of the return item and the frequency. Immediate closure on account with a bad check deposit of \$500.00 or more. No access to Shared Branching Network. No interest earned or paid on checking account balances. After 12 months of satisfactory history the member may apply for a regular checking account.

7. Fees for Overdrawing Accounts. Fees may be imposed on each check, draft, item, ATM card withdrawal, debit card point of purchase, preauthorized automatic debit, telephone initiated withdrawal or any other electronic withdrawal or transfer transaction that is

drawn on an insufficient available account balance. The entire balance in your account may not be available for withdrawal, transfer or paying a check, draft or item. You may consult the Funds Availability Policy for information regarding the availability of funds in your account. Fees for overdrawing your account may be imposed for each overdraft, regardless of whether we pay or return the draft, item or transaction. If we have approved an overdraft protection limit for your account, such fees may reduce your approved limit. Please refer to the Fee Schedule for current fee information.

The rates and fees appearing with this Schedule are accurate as of the Last Dividend Declaration Date indicated on this Truth-in-Savings Disclosure. If you have any questions or require current rate and fee information on your accounts, please call the Credit Union.
